

REMOTE OVERHEAD/UNDERGROUND CABLE CUTTING & CRIMPING FAMILY

REMOVE THE TARGET.

PROTECT THE TARGET.™

Dedicated To Protecting You

The Greenlee remote cutting and crimping platform was developed in unison with utility professionals, creates a method to help **"remove the target"** from high voltage applications.

Remote capability allows access to hard to reach areas like never before.

Total Operational Control

- Universal remote paired with battery hydraulic cutting and crimping allows for ideal ergonomic option
- Tools are designed and tested for energized areas

Key Features

- Universal remote compatible with all Greenlee remote tools
- Trigger jacket helps secure tool with universal spline connection to hot sticks

Rigging Set Up

- Trigger jacket (BTC3-TJ)
- Universal spline hot stick engagement
- Lightweight, durable assembly

Remote Control (BTC3GL)

- Bluetooth connection confirmation LED (BLUE)
- Blade movement LED (GREEN)
- Audio feedback

Pairing the Remote Control

- Check out our YouTube page to watch additional videos about this the remote control features

Step 1

Once the tool is paired in remote mode, affix jacket to depress trigger and position spline attachment to back of the tool

Underground Remote Cable Cutters

Unlike overhead electric power distribution systems, underground, shielded electric cable systems cannot be visually traced back to an open point to ensure the cable is isolated.

Total Operational Control

- Universal Remote allows for; forward, stop, and reverse of the blade at any time
- Select between **Hand-Held** and **Remote** usage options to enable remote feature
- Double tap trigger operation in hand-held mode avoids unintentional blade engagement
- Electric break stops residual blade travel when trigger is disengaged

Key Features

- Equipped with Cut Confirmation Sensor to help assure cable is completely severed
- Flip-top jaw and guillotine style cutting head secures conductor
- Cutting capacity up to 2.55" (65 mm) (ESG65LXR) and 4.13" (105 mm) (ESG105LXR)
- LED level indicator on battery and built-in tool self-test confirms ability to complete cut
